Is an OCIP right for you?

Feasibility Study Components
» Comprehensive risk analyses
» Pro forma analysis
» Coverage needs analysis
» Regulatory and legislative analyses
» Analyze over 100 non-financial considerations
» Objective recommendations
» Personnel support and staffing needs analysis
» Implementation plan and schedule

Feasibility Study Benefits
» Objective, unbiased opinion of whether an OCIP is right for you
» Evaluate cost-effectiveness and viability of an OCIP
» Compare pros and cons between an OCIP, traditional insurance, and a CCIP
» Understand the budget, planning, and implementation schedule for a successful OCIP

Alternative Delivery Methods (ADMs)
ADMs pose unique considerations when evaluating an OCIP. We consider the party(ies) best positioned to control and manage risk, the party(ies) assuming the most risk, and the amount of self-performed vs. sub-contracted work. We work on projects using the following delivery models.
» Competitive Bid (Design/Bid/Build)
» Design/Build
» Construction Manager at Risk
» Integrated Project Delivery
» P3 (Public/Private Partnership)

Financing Construction Risk
A comprehensive OCIP feasibility study compares costs and benefits of an OCIP against other risk financing options, accounts for project goals and delivery method, and demonstrates how an OCIP can be implemented. Make a confident risk financing choice for your next project with a comprehensive feasibility study.

Evaluate OCIP cost-effectiveness
Compare pros and cons of risk finance methods
Budget, plan, and implement an OCIP

**Catherine Wells**, CPCU, ARM, CRIS, MBA  
Director, Construction Risk Management Consulting  
(916) 244-1184  
cwells@bickmore.net

Cathy is an expert on construction project risk management and risk finance. She’s designed sophisticated risk finance programs for cities, transportation authorities, airports, universities, and other large organizations with construction values up to $10 billion. By objectively analyzing the risks associated with each project, Cathy helps determine the best custom risk finance option and develops actionable plans to address complex issues.

**Olivia Raese**, ARM, CIC, CRIS, RIMS-CRMP, PMP  
Senior Risk Consultant  
(916) 244-1178  
oraese@bickmore.net

Olivia has more than 15 years of experience assisting clients as a risk management consultant, broker, and insurance consultant. She works on major construction risk management programs by addressing the efficacy and compliance of their insurance programs.
